i Preface These notes are meant to accompany course PHYS2350 Experimental Physics, for the Spring 1999 semester. They should make it much easier for you to follow the ...

EXPERIMENTAL PHYSICS Notes for Course PHYS2350

Description : Based on the modern approach of information theory, this book presents novel experimental techniques, tools, and data processing methods for physics applications. It shows readers how to plan and conduct experiments, design and certify measuring equipment, and process and interpret the experimental data.

However, if well prepared and applying very careful experimental skills the student can expect results which
can compare with the best in literature. B. General Remarks. The aim of a lab course in the Advanced
Physics Teaching Lab is: â€¢ Learn physics by proper preparation for the experiments and by doing. â€¢
Learn experimental techniques.
