[[Epub Download]] Moon Tide Lone March - 3000loan.org.uk

At New Moon and Full Moon the gravitational force of the Sun and the Moon act together and create spring tides. (Not to scale.) While both the Moon and the Sun influence the ocean tides, the Moon plays the biggest role because it is so much closer to our planet than the Sun.

The Moon Causes Tides on Earth - Time and Date

Have the moon stop at several points in the circle and let the class see where high and low tides are in relation to the moon's orbit. High tides are the areas where the students are leaning out away from the center of the circle. Low tides are at the sides of the circle, halfway between the high tides.
