While some types of qualitative analysis have a standard set of procedures, narrative research is questionable in this regard. One of the weaknesses of studying narratives is that the text is by its own nature linguistically subjective. i.e. difficult to quantitatively access in an objective manner since it is subjective i.e. personally meaningful.

### **Narrative Research - Analysis of Qualitative Data - Design**

Narrative analysis utilizes "narrative reasoning" by shaping data in a narrative form and doing an in-depth analysis of each narrative on its own, whereas analysis of narratives utilizes paradigmatic reasoning and analyzes themes across data that take the form of narratives.
