Principles of natural law are constant even if the values and attitudes of men change over time. Principles of natural law have universal applicability.

Classical Natural Law Theory - cfpcourseweb.com

Even though John Calvin taught that natural law (which he identified as "equity") was normative in civil law and social ethics, the whole system of his theology led to an undermining of the natural law view on social ethics. Therefore, those who adhered to the Calvinistic system began to move away increasingly from natural law to a more biblical formulation of civil law, culminating in the explicit biblical law perspective of the Scottish Covenanters and English and New England Puritans.

Natural Law Theory Brief Summary

Thomas Aquinas is generally regarded as the West's pre-eminent theorist of the natural law, critically inheriting the main traditions of natural law or quasi-natural law thinking in the ancient world (including the Platonic, and particularly Aristotelian and Stoic traditions) and bringing elements from these traditions into systematic relation in the framework of a metaphysics of creation and divine providence. His theory sets the terms of debate for subsequent natural law theorizing.
