IL & GAS m Environmental protection on the high seas URACA pumps from Bad Urach are in action all over the world where fluids need to be trans-ferred at high pressure.â€

### **Environmental protection on the high seas - [PDF Document]**

Legally, the high seas are defined as the 60% expanse of the oceans that lie beyond national exclusive economic zones, which are within 200 nautical miles (370 km) of coastlines. Despite legal definitions, however, the expanses of the high seas are neither well-defined nor well-understood from ecological or geological perspectives.

High seas governance organizations differ greatly with respect to the emphasis their mandates place on conservation. Most are charged primarily with managing resources, such as fisheries, though some of those organizations have mandates that call for the additional application of the ecosystem and/or the precautionary approach.
